### ***Examiner's Statement of Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: The prior art of record does not, alone or in combination, disclose "correcting means for correcting a source table showing standard relation between a measured value in the oscillation circuit and a distance to the detection object so as to be matched to a recognition result of the actually measured value recognizing means for arbitral three distances (claim 1)"; "a step of correcting a measured value included in the range extracted from the source table so that the measured value corresponding to the measurement point maybe matched to the actually measured value (claim 2)"; "correcting means f or correcting a measured value included in the range extracted by the extracting means so that the measured value corresponding to the distance may be matched to the actually measured value (claim 3)."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
